# DESIGN TECHNOLOGY BUILDING

# ABOUT

## WHAT IS GRAPHIC DESIGN?

Graphic Design is the creation, selection, and organization of visual elements, forming a visual language, to effectively convey a message to an audience. Graphic Designers solve communication problems by generating ideas that take visual form. These visual ideas and messages can persuade, inform, identify, motivate, organize, and brand, serving commerce, society, and education. There are many specialized areas of Graphic Design including advertising, web design, publication design, packaging, identity design, branding, and environmental design.

## ABOUT ILLUSTRATION

Illustration is a unique art form that is defined not by its medium, but by its context. Illustration finds its home in the public sphere of popular media. With a rich history and a modern, contemporary outlook, illustration brings life to concepts and stories through image-making. Whether created digitally or by hand, an illustration can be both a masterful work of art and a practical business application.

# COURSES

# GRAPHIC DESIGN & ILLUSTRATION COURSES

## ARTC 100 - GRAPHIC DESIGN I

Degree Applicable, CSU

Advisory: ARTD 15A, ARTD 20, or PHOT 4

Contemporary graphic design for the commercial arts industry. Covers technology, creativity, design, and production. Focuses on using Adobe Photoshop to produce effective commercial art. Additional exposure to Adobe Illustrator and other professional production tools.

## ARTC 120 - GRAPHIC DESIGN II

Degree Applicable, CSU

Prerequisite: ARTC 70 or ARTC 100

Graphic design concepts, theories, and strategies for the design and layout of printed commercial art. Covers typical printed products including advertisements, flyers, brochures, posters, newsletters, books, and catalogs. Focuses on using Adobe InDesign with additional exposure to Photoshop and Illustrator.

## ARTC 140 - GRAPHIC DESIGN III

Degree Applicable

Prerequisite: ARTC 70 or ARTC 100

Digital illustration, design, skills, and concepts working primarily with vector art. Focuses on using Adobe Illustrator as the primary development tool.

## ARTC 160 - TYPOGRAPHY

Degree Applicable, CSU

Prerequisite: ARTC 100 or ARTC 70

Design and use of basic letterforms, type families, characteristics, history, and principles of typography in graphic design. Traditional and digital skills for the art of typeface design, typographic layout, expressive typography, and conceptual thinking.

## ARTC 163 - DYNAMIC SKETCHING

Degree Applicable, CSU

Prerequisite: ARTD 15A or ANIM 104

Essential tools to conceptualize, communicate, and express creative ideas dynamically through the art of sketching. Emphasis on problem solving through the sketching process for illustrators, animators, entertainment designers, and fine artists.

## ARTC 165 - ILLUSTRATION

Degree Applicable, CSU

Prerequisite: ARTD 15A or ANIM 104

Contemporary illustration with an emphasis on story, editorial, and advertising applications. Proper uses of illustrative rendering techniques in traditional drawing and painting media, paper, and their integration to electronic media. Using professional illustration software, peripherals, and color laser printing, students advance to produce more complex illustrations.

## ARTC 167 - VISUAL DEVELOPMENT

Degree Applicable, CSU

Prerequisite: ARTC 163 or ARTD 16

Development of visual concepts and storytelling for entertainment illustration through use of value, design, color and composition as symbolic tools for communication. Students cannot receive credit for both ARTC 167 and ANIM 167.

## ARTC 169 - CONCEPTUAL ILLUSTRATION

Degree Applicable

Prerequisite: ARTD 15A and ARTD 25

Advisory: ANIM 101A

Development of visual concepts and vocabulary to create unique and provocative editorial illustration interpretations based on social, cultural, and political issues. Exploration of personal style and media with emphasis on contemporary art trends.

## ARTC 200 - WEB DESIGN

Degree Applicable, CSU

Prerequisite: ARTC 100 or ARTC 70

Design, usability, production, and marketing of web site development using contemporary methods including XHTML, CSS, and contemporary tools including Adobe Dreamweaver and Flash. Web-focused multimedia concepts, including animation and video integration are explored.

## ARTC 220 - GRAPHIC DESIGN IV

Degree Applicable

Prerequisite: ARTC 100 or ARTC 70

Advisory: ARTC 140

Advanced graphic design concepts and skills working with Adobe Photoshop and other graphic design applications.

## ARTC 240 - MULTIMEDIA DESIGN

Degree Applicable, CSU

Prerequisite: ARTC 200

Multimedia design and development using a variety of professional software and tools. Focus is on the web as the primary, although not exclusive, delivery channel for multimedia. Covers technical skills including intermediate web design, basic video editing, basic sound editing, and basic animation. Covers creative and conceptual skills including interface design, clarity of communication, and user experience.

## ARTC 280 - COMMERCIAL ART STUDIO

Degree Applicable

Prerequisite: Completion of a minimum of 15 semester units in Graphic Design, Illustration, Web Design, Animation, Architectural Design, Art, Fashion Merchandising, Industrial Design, Interior Design or Computer Graphics.

Collaborative, interdisciplinary, teams will research, design, produce, and deliver commercial art projects. Projects will be "real world" and complex in scope, typically involving clients from the college or community.

## ARTC 290 - PORTFOLIO

Degree Applicable

Prerequisite: Completion of a minimum of 15 semester units in one of the following programs: Graphic Design, Illustration, Animation, Web Design, Architectural Design, Art, Fashion Merchandising, Industrial Design, Interior Design, Photography or Computer Graphics. Selection, preparation, and assembly of a portfolio, book, or package of works of art, including digital and multimedia formats, that represent individual interests and strengths of students from the visual arts disciplines for use in entering a four-year institution, professional art school, or professional field of choice. Also includes cover letter and resume preparation.

## ARTC 299 - GRAPHIC DESIGN INTERNSHIP

Degree Applicable

Prerequisite: Compliance with Work Experience regulations as designated in the College Catalog

Advisory: ARTC 120 and ARTC 220

Provides students with on-the-job experience in graphic design, web design, media design, advertising design, illustration or other graphic design related field in an approved work site. A minimum of 75 paid clock hours or 60 non-paid clock hours per semester is required for each unit of credit. It is recommended that the hours per week are equally distributed throughout the semester.

# CAREERS

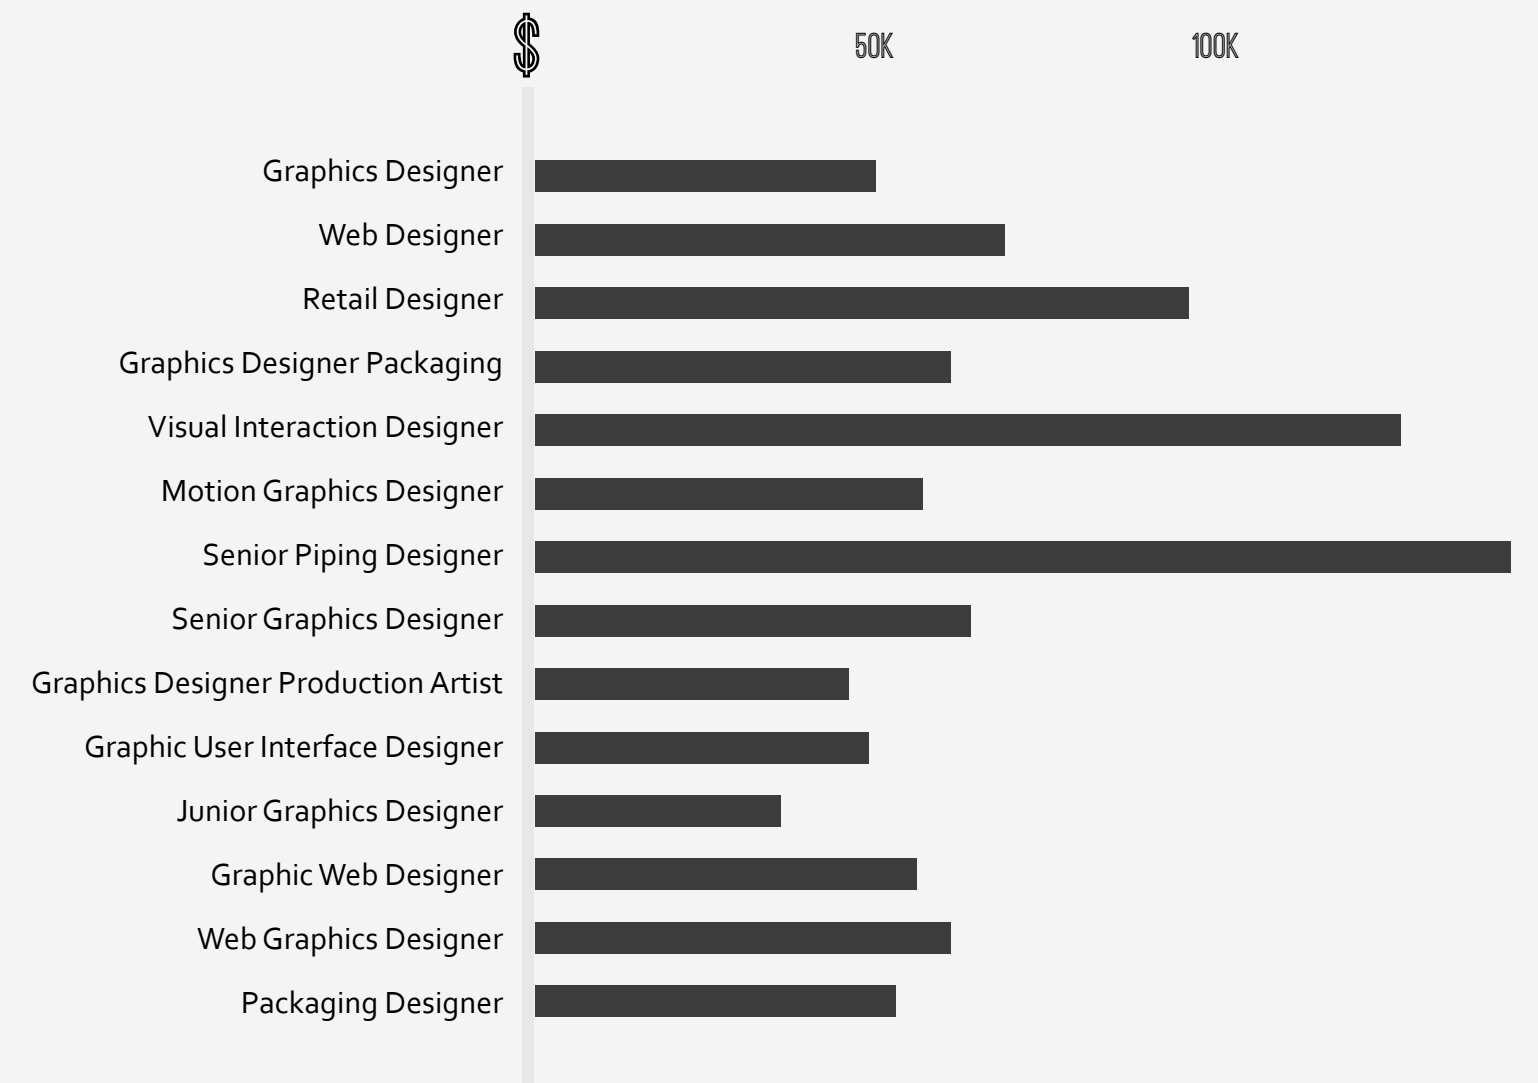

# JOBS & CAREERS

Graphic designers create visual concepts, by hand or using computer software, to communicate ideas that inspire, inform, or captivate consumers. They help to make an organization recognizable by selecting color, images, or logo designs that represent a particular idea or identity to be used in advertising and promotions.

Most of these workers are employed in specialized design services, publishing, or advertising, public relations and related services. In 2010, about 29 percent of graphic designers were self-employed.

The median annual wage of graphic designers was \$43,500 in May 2010.

Employment of graphic designers is projected to increase by 13 percent from 2010 to 2020, about as fast as the average for all occupations. High job turnover should result in numerous openings. However, competition for senior graphic designer positions will be very strong.

# THE MONSTER MASH

THE OFFICIAL NEWSLETTER OF LADY GAGA FALL 2011

## MARRY THE NIGHT ANNOUNCED AS THE NEXT SINGLE

Lady Gaga's latest song "Yoü And I" is still among the top ten singles according to Billboard, but the singer is already planning her next radio release. The fifth cut from Gaga's multi-platinum album Born This Way is the fan favorite dance track "Marry The Night," which was produced by Fernando Garibay and is inspired by Gaga's love for her hometown New York City.

"I wrote so many songs on this new album about New York City, but one in particular 'Marry The Night,' that record is about my husband, New York," she told MTV prior to the album release.

"You know, we've been working together for years, so I'm so excited. I feel like, you and I have yet to have our big hit record," Gaga said of collaborating with Garibay. "I kept saying to him, 'I don't want to sound like anything I've done before.'"

"He goes 'Your show is a religion and your fans are a cult,'" she recalled. "And I heard these church bells. It's this epic music. It's just so big. And I started to cry. He said, 'What's wrong?' And I said, 'I can't believe that you hear me so big.'"

"It's like Whitney, but imagine if Bruce Springsteen had a baby with Whitney Houston — that's what it is," she added. "And that was it! We made a baby. Finally. After all that fornication, miserably long and tedious, Fernando and I finally conceived."

"Marry The Night" debuted on Billboard's top 100 singles back in May, when it reached number 79 due to strong digital sales following the release of Born This Way.

### Lady Gaga Scores Eleventh Dance Number One

Lady Gaga has scored another dance number one. The singer's single "Yoü And I" this week climbs 2-1 on Billboards Dance/Club Songs, becoming her eleventh consecutive chart-topper. Gaga's only song not to reach the top spot of the chart was "Just Dance," which peaked at number two.

The "Yoü And I" remixes bundle, which features club-ready mixes of the track by 10 Kings, Danny Verde and Hector Fonseca, as well as renditions by British bands Wild Beasts and Metronomy, is out now. The Wild Beasts mix is also included in Born This Way – The Remix, in stores November 21st.

# MAINFRAME

## STATISTICS & PERFORMANCE

## COST & RECOMMENDATIONS

**INTEL + NVIDIA:**  
This combination is the most expensive, however, it performs the best in all aspects. Intel and NVIDIA share patents. This allows hardware optimization and works very well together. Whether it is gaming, rendering videos, or just watching YouTube, this combo will take anything thrown at it.

**INTEL + AMD:**  
This build combination can contend with the INTEL + NVIDIA build, however, AMD graphic processor are not as finessed as NVIDIA's. In some cases, AMD can outperform NVIDIA in gaming but in all other aspects, NVIDIA will win.

**AMD + NVIDIA:**  
Using AMD CPUs can save a lot of money. This is a great build combo for those who are on a budget. The only issue is the power of the NVIDIA GPU will be bottlenecked by the AMD processor. Frames per second will be lower during gaming, but not by much. However, video rendering performance drops drastically.

**AMD + AMD:**  
Because the CPU and GPU are both made by AMD, they made sure they optimized this combination. AMD calls this the Scorpion platform. The CPU and GPU performs well together, however, the CPU still bottlenecks the GPU even though it is the same manufacturer.

AMD is a great alternative for a budget build, however, the biggest flaw with AMD is their lack of support. AMD has a strong history of poor drivers, which limits their hardware from its full potential. AMD is behind NVIDIA in the performance department. Also, AMD heats up more and uses much more energy.

Intel is more expensive, but that is the price you pay for the best.
